

Partnership Presentation

SINAX – Your Solution Partner for Fly Screen Systems

We would like to briefly introduce ourselves and explore potential opportunities for cooperation.

SINAX is a manufacturer focused on the production of high-quality fly screen systems since 1997 and is recognized as first fly screen brand of Türkiye.

We operate in a 2,500 m² manufacturing facility and export to 18 countries.

Our product range includes roller, pleated, motorized, sliding, fixed, and hinged fly screen systems.

In order to ensure long service life, quality, and reliability, we use components sourced from Germany, the Netherlands, Belgium, the United States, and Japan, and offer both branded and private label solutions developed through our own engineering expertise.

SINAX acts as an fly screen solution partner in projects involving internationally recognized profile and window system brands such as Schüco, Reynaers, Sapa, Çuhadaroğlu, Deceuninck, Rehau, Kömmerling, Aluplast, and Kleidco, and develops customized fly screen systems matched with window and door frames upon request.

We believe that our systems can complement your product range, and we would like to highlight our ability to provide services in the following areas:

- B2B distributorship or dealership partnerships
- Branded and private label manufacturing
- R&D, technical support, and project-based production solutions

SOME OF OUR PROJECT PARTNERS:

SCHÜCO

sapa

ÇUHADAROĞLU
Alüminyum Sistemleri

REHAU

REYNAERS
aluminium

deceuninck

aluplast

KLEIDCO

Kömmerling
TODAY FOR TOMORROW

We develop fly screen system solutions
that protect healthy living spaces while preserving ecological balance.

Thirty-Three Years of Experience in the Industry

OUR COMPANY,

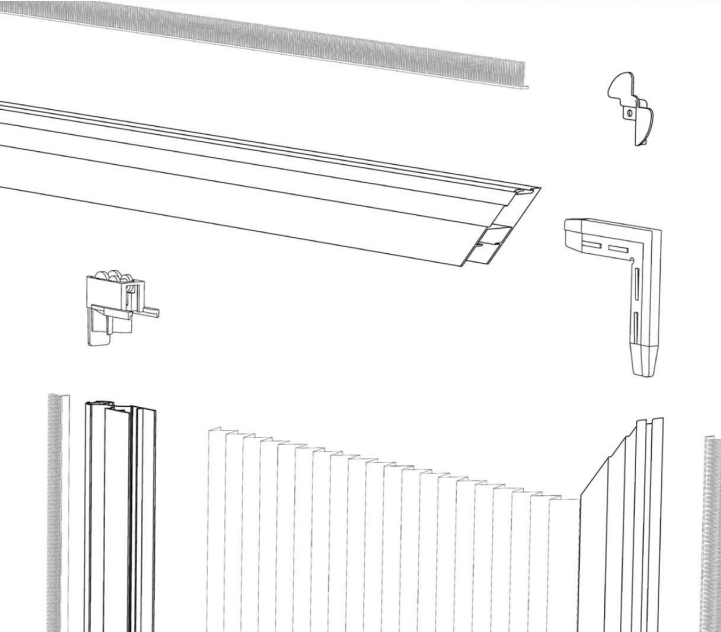

Believes that one of the most important conditions for remaining competitive and strengthening its position in the market is Research & Development, and therefore allocates a significant budget to R&D every year.

Our R&D Principle:

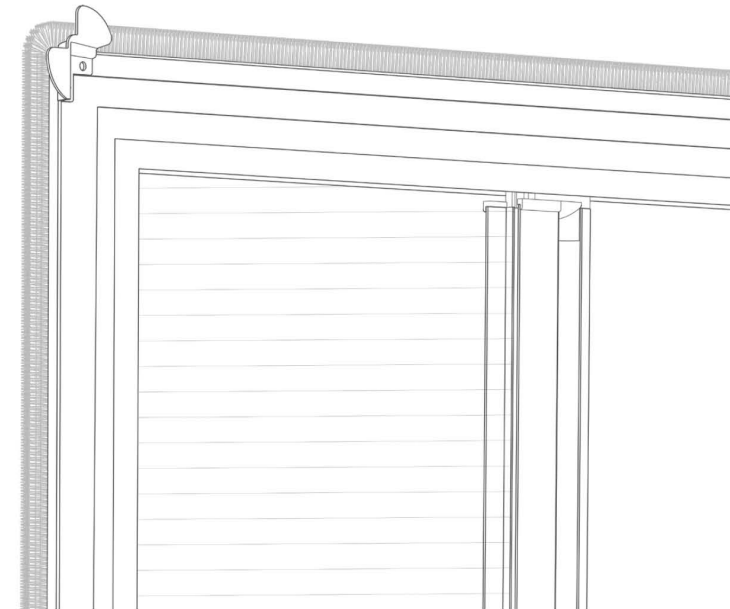

"Those who stand still, fall behind."

"Fly Screens Are Our Expertise"

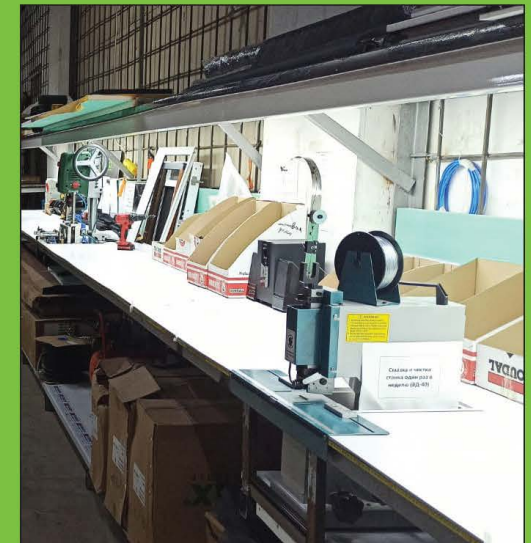

Since our establishment,
we have never compromised on quality.
Because we know that
"Poor-quality production is waste."
